NORWAY AND VICINITY.

Chas. S. Akers, Norway's Next Postmaster.

Word was received in Norway, Saturday, from Congressman Littlefield, announcing his decision in the Norway postmaster contest. He has recommended the appointment of Charles S. Akers.

John Sampson has been sick with tonsillitis.

Mr. and Mrs. Fred Cummings went to Bangor, Monday.

Freeman Manson is in town for a few days this week.

Mrs. Jennie Cook of Lewiston was in Norway, Saturday.

Horace Sanborn of Portland visited here the past week.

W. C. Brown has boarded in the store shed front at the Norway mills.

The Ladies' M. E. circle met with Mrs. Noyes Wednesday afternoon.

Frank Sampson is working for C. B. Cummings & Sons in the dove mill.

The bathhouse at Sand pond has been repaired, the walls shingled and stained.

F. W. Pratt of the electric light station has been on the sick list the past week.

Rev. C. Elwood Brooks has been called to be pastor of the Methodist church of Alfred to commence work as soon as he graduates in June.

Nathan Chapin, who works in the clothing room of the shoe factory, has been on vacation to New York. He returned, Saturday.

Rev. A. B. McAllister goes to Lisbon, this week to commence his new work as pastor of the Methodist church of that place. His friends wish him much success. Mr. McAllister has been a clerk at O. P. Brooks' market.

A very marked degree of interest was shown in the Methodist church last Sabbath morning and evening, on the return of Rev. Mr. Brooks for another Consecration year, large numbers and spiritual movement characterized the services.

Those who attended the meeting of the Shriners held in Bangor, last Thursday, were Frank Kimball, George Cole and Arthur Hebbard. A class of 103 took the degrees. C. L. Hathaway was elected special representative to attend the meeting to be held in Los Angeles, May 4 and 5.

Frank S. Waldron of Portland was in Norway, Monday. Mr. Waldron is a member of J. E. Gould & Co., wholesale druggists on Federal street. It will be remembered that their store was burned a few months ago. He expects to have their new store ready to move into next week. Mr. Waldron was for several years clerk in the Stone Drug Store.

John A. Woodman has returned from "Kettle Cove," Sebago. He and A. E. Murray stopped at Nelson's camp some four days. They claimed to have worked industriously and captured two salmon, weighing some six pounds each. The salmon were not hungry and failed to bite eagerly. About the same number of fish were there as last year, but the catch of salmon was only about one-fourth of what it was a year ago.

Norway Municipal Court.

Charles B. Standish of Peru was brought into court last week on the charge of polygamy.

Standish formerly lived in Medford, Mass., but left his family there and came to Peru a few years ago, giving his name as Charles B. Stanley. In December, 1904, he was married to Ella Addie Lovejoy of Peru, and has been employed on the railroad. The arrest was made on complaint of a former wife, to whom he was married in 1900. He said he supposed his first wife was dead, but his marriage certificate, recorded in Peru, says this is his first marriage. Being unable to furnish the \$500 bonds under which he was placed, he was bound over to the October term of the Supreme Court and is now in the South Paris jail.

Norway Sends Her Mite.

To Aid the California Sufferers.

Eleven years ago, Norway had a disastrous fire—some lost all—their homes were burned lost some—The people responded heartily and a large sum of money was immediately given to help the sufferers, and there never for one moment was the nearest approach of actual want as all were housed and fed at once.

Now, people of this community, you all know of the terrible catastrophe that has come upon the people of California. Can we do any less for them? Their need is terrible, they are actually starving and unprotected from the weather. The devastation of the city is so complete that three-quarters of the population are without food and shelter. Imagine for a moment, two hundred and fifty thousand people homeless and all supplies within immediate reach destroyed by fire. Food must be rushed in by every means available for weeks to come, and money must be at hand to pay for it. The most we can possibly do will be to stay actual suffering. Let all give something and do not think for a moment the need is any less because it is so far away.

All money left with the Norway Advertiser, or with Wm. C. Leavitt, President of the Norway Board of Trade, will be acknowledged and promptly forwarded.

James Kelley, who works in Portland, spent Sunday at his home on Whitman street.

Horatio Hammond of West Paris is working at Wm. C. Leavitt's, learning the trade.

Broncos, cow-boys and cow-girls are getting to be one of the features on Norway's streets.

The street railway people did a large business Friday, on account of the fire at South Paris.

Lawrence McFarland from Hebron Academy recently visited his sister, Mrs. Bertram Hammon.

Agness Sanborn, teacher in Butler school, Portland, has been at home for a few weeks vacation.

Col. W. W. Whitmarsh is soon to break ground for his new residence on Bridge street. The "old Whitcomb barn" will be removed to make room for it. This is a good location and it is understood will be one of Norway's best residences.

Radcliffe vs. Hebrons.

The first baseball game of the season will be held on the Fair Grounds, Thursday afternoon, Fast Day. Between the Radcliffes and Hebrons. The game is called at 2:30 sharp. There are two, strong, well matched nines and the game promises to be one of interest.

Howard Comedy Company.

The Big Four show at Norway Opera House, one night only, Friday, April 27. The Howard Comedy and refined Vaudeville company includes some of the best artists in the profession, including Howard and Colby in their sketch "After Fame," the Mortons, sketch artists, Mark A. Clancy, Irish comedian, The Hunt-A. (retired) will instruct, amuse and otherwise entertain the audience during the passing of the motion pictures. Mr. and Mrs. Pete Craig, direct from Keith's Theatre, Boston, will appear in their latest songs and dancing specialties. Miss Rehan, champion lady clog dancer, will also appear. This company has been here before and was pronounced a good attraction—the show is now better than ever. Prices 15c, 25c, 35c. Tickets now on sale at Stone's.

A BIG VARIETY OF WANTS.

There are a good many different ads in this weeks paper. We have not counted them but will venture a guess somewhere near 175 advertisements from stray shoes to saw mill machinery.

Could it be possible for us to induce these people to use space in this paper and pay good money for it year after year if this expenditure of money did not pay them?

The patrons of this paper include the prosperous business men and women of the two towns. As a rule they control the affairs in their line and are making money.

Look the list over.

Why do they use this paper?

The ADVERTISER goes into more than 2000 different homes in this immediate vicinity and 1000 more copies into the homes of people who are interested in this section of the world and annually visit here—total 3000 homes.

You are more or less governed by what you see in the newspaper. This is not denied.

The person who uses space in this paper intelligently makes it pay. No question or doubt about it.

Write or call on us if interested and let's talk it over.

F. W. SANBORN.

Ross L. Bickford went to Portland, Friday.

Percy Walker and F. A. Hall have put in new cellar wall and foundation for Chas. Libby's new house on Paris street.

Mary M. Bickford came home, Friday evening, for a vacation of a week. Miss Bickford teaches in the Jackson school, Portland.

The sign of the Norway & Western Railroad at their office on Main street makes a good showing among our business signs.

Robert Patterson, who has recently located here, has bought the A. F. Barrows blacksmith shop on Bridge street, and will run it.

Mrs. A. S. Kimball was taken very sick Friday, threatened with pneumonia. Her sister, Mrs. Clara Noble, came on Saturday and is with her.

The Odd Fellows and Rebekahs will observe the 57th anniversary of the order by attending Divine service at the Baptist church, next Sunday.

Arthur Eastman, who has been working in the office of Freeland Howe for several weeks, returned to his home at Mechanic Falls, Saturday.

Word has been received that Mrs. A. Thompson and daughter, Maud Thompson, were safe. They were in California, at time of the earthquake.

Marguerite Finney returned home from the hospital at Lewiston, Saturday, where she underwent an operation for appendicitis about two weeks ago.

It has been suggested that the curfew rule which has just been instituted by the South Paris Corporation to keep the children off the street after a certain hour, also regarding spitting on the sidewalk, would be a good rule to adopt here in Norway.

The Right Reverend Robert Codman, Bishop of the diocese of Maine will visit Christ Episcopal church, Thursday evening, April 26, for the purpose of administering the rite of confirmation to a class of adults. He will be assisted by Archdeacon Seymour.

"I advertised to sell a Baldwin from a show apple top worked with a very red Baldwin apple," said Walter S. Buck. "Yes, there was considerable of a demand for the apple and I sold one man a dollar's worth. If I have anything to sell I believe in letting it be known and I use your want column pretty often." This is true, Walter Buck believes in advertising as our readers are aware.

All the good people of Norway ought to plan to attend Dr. Smith Baker's lecture at the Congregational church Friday evening. Dr. Baker always has something good and interesting to say—no matter what his subject is. He is an interesting old and young, learned and unlearned. His wonderful descriptions, his oratory, his pleasing illustrations, his personality, constitute him one of the most interesting speakers in the country today. His lecture is worth double the price of admission.

Norway & Western Railroad.

The people of the town now really believe that the railroad is a "sure thing." At Norway Lake things look unusually favorable. Large bridge timbers and oak tiling have been hauled to "Little Italy," near Norway Lake village. Large supply houses and quarters for the laborers have been erected.

Surprise Party.

Two of Norway's young men, Verne Rich and Walter P. Cullinan, were 21 years old last Saturday, and their friends planned to give them a surprise. They were invited to come to the Grand Army hall, Tuesday evening to a party, as were also about 20 of their friends. All marched into the hall from the kitchen together, where a long table was well loaded with food. At one end of the table was a cake with the words "Cullinan" on the center with "and" and one at the foot with "Rich." The presents were an umbrella for each and were presented by Alice Abbott. After supper songs were sung, games played and a general good time enjoyed by all.

Shade Trees Should Now be Planted.

Now is the time to do it. Don't wait for Arbor Day. Plant the trees as soon as you can after the frost is out of the ground.

We believe the corporation has some funds for tree planting, but you should not wait, or expect the corporation to do this for you. Do it yourself and then the trees will be planted and your homes, in years to come, beautified.

A Mistake in the Medicine.

W. H. Porter, the Falls fish peddler, had some acid, used for the extracting of corns, put in his right eye by mistake, last Monday evening. His eye was troubling him and he had an eye wash which he used at such times, but in picking out the bottle he put the wrong one. Undoubtedly the sight of the eye is ruined. Mr. Porter is 84 years old.

Maud Allen was in Lewiston, Saturday.

Nys Gilbert is working on Pittsfield's new paper, the Pittsfield Journal.

Miss E. E. Burnham of Bethel was the guest of Mrs. Ariel Horton, Sunday.

Mrs. E. A. Barker of Bath is visiting her parents, Mr. and Mrs. Otto Schuer, for a few days.

There will be union services of all the churches at the Universalist church this Thursday evening.

Little Irene Hassan is here from Massachusetts to visit her grandparents, Mr. and Mrs. Walter P. Anderson.

There will be a social dance at Norway Opera House, Thursday evening, Fast night. Music by Stearns' orchestra. The Imperial Shrine that was to meet in Los Angeles in May, has been postponed, and will not be held there this year.

Walter P. Cullinan, son of Mr. and Mrs. John P. Cullinan was presented with a gold watch and chain as a birthday gift.

Friday, the foundation of the hose house at the falls was found to be unsafe. Hose cart is housed in Horace Coley's stable.

Bessie York, who works in F. H. Noyes Co.'s tailor department, was confined to the house Friday and Saturday by illness.

It's said trout thrive on buttermilk. In proof of it good fat trout are taken from the buttermilk brooks that flows from the West Paris creamery.

Rev. B. S. Rideout has been engaged to deliver a lecture on "Idiosyncrasies" at North Waterford, May 3, for the benefit of the Odd Fellows' library.

L. L. Gilbert is repairing his house on Beal street. He is building the piazza over and remodeling the kitchen, and will paint inside and out. Also will build a new chimney.

Dr. Lakin says he lost his watch last Saturday, going from the studio to the barn on Bridge street. Attached to the watch was a light colored braided chain. He is anxious to recover the watch.

A special meeting of Norway lodge, No. 16, I. O. O. F. will be held in the Odd Fellows hall, next Sunday, at 10 o'clock, for the purpose of attending Divine service at the Baptist church.

Judge and Mrs. A. E. Morrison, and sons, Rubley and Frank, of Rumford Falls, visited Mrs. Morrison's parents, Mr. and Mrs. Freeland Howe, the past week. The Judge is about building a fine residence in Rumford Falls.

Dr. E. L. Ridge, of W. W. Hamam, Mass., is very ill. The doctor at one time was in Dr. Geo. P. Jones dental office here, though for twenty-five years or more he has been in business at Waltham. He was a very jovial man and had many friends in the village. Dr. Hamlin was a native of Waterford.

Ernest E. and Hannah G. Demerith, of Bethel, who bargained for the J. L. Horne residence, on Main street, and moved there a week or so ago, have decided to throw up their trade. This is a fine residence for the right owners. Mr. Demerith's people thought it was not the place for them.

The Etiquette club will meet at D. C. Watson's, April 26, with the following program:

Current events.....Club Song.....Marion Wallace Regitation.....Ralph Watson Questions from Whittier.....Club Table manners.....Club Regitation.....Ava Watson Regitation.....Helen Dunn Song.....

W. L. Libby, who works for C. F. Riddon, is a much abused man as far as newspapers are concerned. We had him smelting at Bryant's Pond and selling the catch in this town last week. A city daily gives his picture this week and labels it to C. S. Akers, Norway's new postmaster to the facts but will not make much of a kick about it.

The town authorities have notified M. F. Fuller, inspector of buildings, that hereafter no single brick chimney can be built in any house. All chimneys must be either double brick or tile. lined to comply with the ruling, and the labor of woodwork is to come within one inch of the bricks. This the inspector will insist upon in compliance with the order of the selectmen. This is as it should be and ought to have been enforced years ago.

Telegraphic Shoot.

In the telegraphic shoot that was held between Co. D and the Lewiston and Auburn Rifle club Tuesday evening the Lewiston and Auburn club won by a score of 444 to 426. The Lewiston parties shot with match rifles and sights and Co. D used the military rifles.

Co. D shot in the basement at Capt. J. W. Nash's. George T. Tubbs was high man on the Norway team with a score of 48. The following is the score of Co. D:

Stiles.....45
Marston.....45
Richardson.....45
Daugherty.....45

Spending Honeymoon in Lawrence, Mass.

Mr. and Mrs. James F. Usher of Norway, who were quietly married at Yarmouth, Monday morning at 8.30 o'clock, by the Rev. Fr. J. A. Flynn at the parochial residence, are spending the first few days of their honeymoon with Emily Hoyt in Lawrence, who is a very close friend of Mrs. Usher. They will go to Lynn, where they will visit with the folks of the bridegroom.

The ceremony quickly performed on Monday at Yarmouth bound in the bonds of wedlock two of the best known and most popular young people of the town of Norway. Mrs. Usher was formerly Vertude Bonney. The bridegroom holds a good position in the Norway shoe shop.

Alice Armstrong was the bridesmaid and Thomas Usher, a brother of the bridegroom, was best man, both attendants coming from Rockland.

Mr. and Mrs. Usher after spending a few weeks in Massachusetts will return to Norway where they will make their home. They have the best wishes of innumerable friends for a happy and prosperous union.

Rebekah District Meeting.

The Rebekahs' district meeting was held with Mt. Hope Rebekah lodge, Friday night, and was well attended. Quite a large number from Mt. Pleasant lodge of South Paris were present.

The Mt. Hope degree team conferred the degree on one candidate, Mrs. Nellie A. Stevens of Westbrook, vice-president of the Assembly was present. Mrs. Stevens gave a very interesting and instructive talk after the work. She praised the work of the team and of the lodge officers. Refreshments of ice cream and cake were served.

The Knights of the Golden Eagle held an assembly at the hall, Tuesday evening. Although there was not a large crowd, there were just enough present to have a good time. Music was by Stearns' orchestra. This is probably the last assembly that will be held this season.

Prize Speaking Contest.

A large crowd of friends and interested people gathered at the Opera House, Friday evening, to hear the prize speaking contest. The program as published in the Advertiser two weeks ago was given in a pleasing manner. All the speakers did well and it was with difficulty that the judges could make a decision but after 15 or 20 minutes discussion they decided as follows—1st lady's prize, Alice Schuer, 2d lady's, Lona Noble, 1st boy's, Earl Thibodeau.

"The Girl I Left Behind."

Tuesday evening, F. J. McCarthy, director, opened rehearsals for a play for Company D, which will be presented at the Opera House during May. "The Girl I Left Behind" is the name of the play and a very strong cast has been secured consisting of D. I. Gould, Fred Moore, Edward Goudy, Harry Kendall, L. H. Daugherty, Richard Stiles, Lona Noble, Lona Mire, and Hessa Thibodeau. Ralph Trask is stage manager. Two or three rehearsals will be held each week.

SOUTH PARIS.

Come to His Rest.

Benj. Wilson, youngest son of Herman D. and Alice B. Wilson, aged 25 years, 1 month and 4 days, leaves one brother, Perley H. Wilson of Bryant's Pond, and three sisters, Mrs. Emma Kimball of South Woodstock, Mrs. Kate Howard of South Paris and Mrs. Lizzie Sanborn of Guilford, N. H., beside a host of friends not only here in Maine but in Worcester and Danvers, Mass., where for four years previous to his sickness he was engaged in hospital work.

He has been a great sufferer for the past eighteen months from tuberculosis of the lungs. He has been tenderly cared for and everything done that could be for his relief. He passed away at the home of his sister, Mrs. Kimball, Monday, April 16th, where he had been since coming from the hospital at Lewiston, Feb. 5th.

The funeral was held at the M. E. church, South Woodstock. Rev. C. A. Brooks spoke words of comfort and cheer. The church was beautifully decorated with potted plants. Among the flowers that were marked were

Simple Way to Cure Catarrh by Hyomei
Without Stomach Dosing.
It is the height of folly to dose the stomach with internal medicines to cure nasal catarrh. It cannot be cured except the catarrhal germs that are present in the nose, throat and lungs have first been killed.
Direct local treatment by breathing Hyomei through the pocket inhaler that comes with every outfit, is absolutely necessary to kill the catarrhal germs and prevent their growth and formation.
The soothing air of Hyomei heals the smarting and raw membrane of the air passages in the nose, throat and lungs, kills off the catarrhal germs and risks the system of the last traces of catarrh.
The complete Hyomei outfit consists of a hard rubber inhaler which can be carried in the purse or vest-pocket, a medicine dropper, and a bottle of Hyomei, and costs only one dollar, while extra bottles can be obtained for 50 cents, thus making it the most economical treatment for the cure of catarrh, as well as the most reliable.
Noyes Drug Store positively guarantee a cure when Hyomei is used in accordance with the simple directions on the package, or they will refund the money. This certainly shows their faith and belief in the virtues of Hyomei.

WEST STONEHAM.

W. W. Durgin recently purchased a horse of Eugene McKee of Albany.
Mrs. L. J. Gammon is renovating her house with whitewash and new wall paper.
Leonard Gammon recently sold a fine large casket sheep to Virgil Littlefield of East Stoneham.
Mrs. Jennie Lawrence of North Lovell stayed a few days with her mother, Mrs. L. J. Gammon.
The prospect of a railroad coming into town causes lots of enthusiasm among the people of this vicinity.
Mud, mud, mud, plenty of mud everywhere and but very little snow, and that is in spots and places. The rain, Sunday, filled the brooks up to high water, making it nice for the lumbermen to drive their logs into the lake.
Blanche and Ethel Adams of North Stoneham visited their brother and wife, Mr. and Mrs. Herbert Adams, at their beautiful cottage near the lake, a few days lately; also Josie Adams, who is working for Mrs. F. B. McKee, made them a short visit.
We noticed uncle Jim McAllister, who is 72 years old, working cordwood up into stove-wood for the schoolhouse with as much vim as most of the young men. He keeps house alone as he has done ever since his brother Hilliard had to leave him on account of his health, and only lived a few months.

New Smelter Revolutionizes Mining

Ex-Mayor Ashley of New Bedford Heads Big Boston Syndicate—Stock of Maggie Murphy Copper Company Has Risen from 25c to 60c Share.
Boston, April 6. Ex-Mayor Charles S. Ashley of New Bedford is the active head of a new syndicate just formed, for the purpose of exploiting a new method for smelting ore, which means

a complete revolution in mining methods, says the Boston Post last Sunday. The new smelter will cost only \$300,000, whereas today a plant to refine the same ore would cost \$300,000. This smelter means every miner can do his own smelting and that properties heretofore not worked can be with low grade ore at a big profit.
Ex-Mayor Ashley is the president of the Maggie Murphy Copper Company, one of the largest copper properties in Wyoming. Those who bought stock at 25c have reaped a profit of 180 per cent, as the market price has gone to 60c, and will advance still higher before long. The remarkable story of how Ex-Mayor Ashley secured control of the Maggie Murphy mine, and the big copper strike, will be sent to anyone. Address Maggie Murphy Copper Co., 16 State St., Boston.

J. H. Rawson.

J. H. Rawson of Paris, dealer in the famous Rawson Horse Remedies, is one of the best known men in this vicinity. He has been driving his cart and selling his medicines through Maine, New Hampshire and Vermont for more than 26 years, and his remedies are highly valued by horsemen.
Before Mr. Rawson was 21 years of age he went into the lively stable business for himself, and was in that business 34 years and carried the mail between Paris Hill and South Paris. He also had a grocery store in his house.
Mr. Rawson has one of the neatest looking residences on the hill, and the view from his place is magnificent. He has many curiosities that he has picked up in his travels or has had given to him by friends. The hitching post is a whale's rib. There is a hat rack made of the teeth of a sperm whale; a meteorite weighing 35 pounds; birds and reptiles; shark's jaw; a piece of Martha Washington's dress.
Mr. Rawson has traveled thousands of miles through New England and visited nearly or quite all the cities and villages. Here at his home is the Rawson Laboratory. He has had fifty years practice in making these medicines, the best known being the Condition Powders, Water Regulator, Cough Powders, Witch Hazel Liniment, Worm Powders, Scratch Ointment, Hoof Salve, and a Hen Food.
Job Holmes Rawson was the son of Samuel P. and Azuba (Knight) Rawson, and was born Sept. 30, 1839. He married Mary E. daughter of John L. and Mary (Elwell) Garland, April 20, 1854. Their five children are Samuel Holmes Rawson; Fannie, who married Freland Truitt; Nellie S., married Clarence M. Hutchins of Sanford; Annie P., married James L. Chase and lives at the historical Hannibal Hamlin homestead on Paris Hill; and Charles Rawson.

Mary E. Elliott.

Died in Porter, at the home of her son, Ansel E. Alley, Mary E. Elliott, aged 85 years, one month and 12 days. She was twice married. Her first husband was Ira Alley of Cornish, and her second, Joshua Elliott of Parsonsfield. She accepted Christ as her Saviour at the age of 12 years, and united with the Free Baptist church in South Cornish. Since the death of her second husband she has lived a great part of the time with her children, making her home first with her son, Ira, and later with Ansel E., where she died.
She was one of a family of 13 children. One sister only survives her. She leaves five children, two sons and three daughters, 13 grandchildren and 13 great-grandchildren, with many friends.

OXFORD.

The Woolen Mill.

The Oxford woolen mill employs at its busiest high water seasons about 200 persons, running day and night at these times. Here are manufactured light weight broadcloths and Venetians, the former weighing seven ounces to the yard, much cotton and wool mixture and ladies repellent cloth. None of the wool used comes from this State as the wool of most of the sheep raised in this part of the country is of too coarse a variety for the grade of work done in this mill.

All the work from the cleansing of the wool to the packing of the dyed finished goods is done in the one building, which is a four story brick structure. The mill runs ten sets of pickers. The cloth is all dyed after being woven, no dyeing in the wool being done, and only goods in solid colors being manufactured. The goods after being dyed, dried and pressed are wrapped in white cloth, the whole being tied with narrow ribbons and bearing labels marked with the qual-ity, color, etc. These attractive pack-ages are forwarded to a New York firm which handles all the goods of this mill.

Oxford Horses.

John B. Robinson, manager of the Robinson Manufacturing Co., has some fine horses which are cared for by E. M. Thayer, who is well known as a horse trainer.

Here are a pair of black mares weigh- ing 1075 pounds each. One is all coal black while the other has but one white spot on one ankle. These are of high pedigree, one being by Baron Wilkes, dam by Linguet, the other by Nelson Wilkes, dam by Lodo. These mares are upheaded, pure gaited trotters. They are capable of a 2.30 clip on a good dry road.

There is a bay pair of geldings, 5 years old, which stand 15 hands 1 1/2 inches high and weigh nearly 1000 lbs. each. They are a high acting team, very stylish and handsome.

A six year old bay gelding, 16 hands strong in height, weighs 1150, by War- wick. This is a fine looking, clean, smooth gentleman's road horse.

A three year old filly, dark bay with four white legs and a strip in the face, stands 15 hands, 2 inches and will make a mare that will weigh 1100. She is by Alcayone, 2.20 1/4, dam, Maada by Essex Hamiltonian. A stallion colt Master- piece two years old is by May King, dam the mother of Alcayone. This colt is well built and smooth. A year- ling filly by The Waver, by Young King, dam Crusade, the dam of Onlooker him two others, trial better than 2.20.

This filly is broken to harness. A black filly by Sedthrope, by Young King, dam Sadie, 2.19, by Wilton. This filly is also broken.

Still another is a five year old mare by Chimes, dam by Red Wilkes. This mare is in foal to Count Direct by Direct Hal.

The "boss of the stable" must not be forgotten, Dock, a black Shetland pony with a strip face and white eyes. He is controlled by Mr. Robinson's little daughter of eleven years who harnesses and to any of the three pony wagons kept for her use.

George H. Jones, the druggist, has a six year old black horse, a high headed beauty and full of life. He was sired by a son of Redwood

NORWAY AND VICINITY.

Famous Artist. Darius Cobb, Boston's celebrated artist, has just completed a highly successful picture of Gen. Israel Putnam, the heroic patriot of the Revolution, for Col. Henry H. Adams, the New York iron and steel magnate.

The portrait is to be hung in the place of honor at the Putnam School at East Cambridge, Conn. The portrait is a replica of one made for the Putnam School at East Cambridge, which has been pronounced to be the standard portrait of the country general.

Darius Cobb was born in Norway, Aug. 6, 1834, the son of Rev. Sylvanus Cobb. He and his twin brother, Cyrus, are both celebrated artists. They married Jan. 1, 1866, two sisters, Emma Lillie and Laura Lillie.

Mrs. William C. Gerry of Bethel visited her Norway friends, Friday.

Dr. Thomas Hurd, dentist at Dr. H. P. Jones', is in New York for a vacation.

Mrs. Emily Whitman below Steep Falls has had her barn newly shingled.

Ell M. Noyes and wife of Bryan's Pond have been visiting her sister, Mrs. Emily Whitman.

Dr. B. F. Bradbury was in Augusta last week and testified as a rifle expert in the Cooper trial.

The windows where fishing tackle and baseball outfits are displayed are getting almost as much attention as those of the millinery stores.

The Pine State Shoe Co. are closing out their shoe manufacturing business. This will be much regretted by Norway people as the business has been run a number of years.

O. B. Warren, postmaster at Rochester, N. H., has been elected department commander of the New Hampshire, G. A. R., Mr. Warren married a sister of G. Julian Brown of Norway.

C. L. Hathaway was elected a delegate to the imperial council at a meeting of Kora Temple held at Bangor last week. A large delegation of Lewiston and Auburn Shriners attended, going by special train.

Letter to Sol H. Millett.

Norway, Maine.

Dear Sir: But few of the men who sell the hundred different paints in the market know much about them. All Devco agents have a state chemist's certificate telling just what's made of them. They know a good deal, not only about Devco, but the rest; we see that they do. We buy every paint that has any sale, and analyze it. Our agent finds out all about it.

When we know what a paint is made of, we know how it will act; we know how far it goes, and how long it wears. Devco is the standard; call it 100. The best of the rest is about 75; the worst about 25; the rest are between.

But the men, who sell them, don't know any better. They know what the makers tell them. That is, they know what he tells them. They don't know whether he tells them the truth or not.

The business is not conducted on knowledge; the less they know, the more comfortable they are. Yours truly, F. P. Stone sells our paint.

\$40,000 Fire at South Paris.

At about five o'clock Friday morning, fire was discovered in the basement of the toy factory owned by the Mason Manufacturing Company. The alarm was given at once and the South Paris fire companies were at work immediately. The fire burned rapidly and soon the sash and blind factory of S. P. Maxim & Son, the grist mill owned by S. P. Webster and run by A. E. Shurtleff were on fire. The Norway company was sent for and the Hook & Ladder company and Hose Company No. 2 started at once. The alarm was rung at Norway about 6 o'clock.

The house of Walter Maxim on the side of the river next to the village caught fire and burned some time but after a while it was got under control. All the furniture and household goods were saved. The house was badly burned. Loss about \$900, covered by insurance.

The house on the other side of the river owned by George N. Elder caught fire and burned for some time, the roof and side next to the river was badly burned. The house next to this one, owned by Albert Morse caught fire but was put out at once. The furniture in the Elder house was saved.

Large piles of lumber back of the toy factory and belonging to the Mason Manufacturing Co. caught fire and considerable of it was burned.

The toy factory was covered by insurance to the amount of \$2500 but this is probably not one half of what the loss is. The total loss of the fire is estimated at \$40,000.

At one time the Lewiston fire company was telephoned for but as they did not get started at once and the fire was gotten under control, word was sent to them not to come.

The toy factory employed about 75 people. The sash and blind factory was built in 1880 by S. P. Maxim.

The Toy Factory.

The toy factory which was burned in the fire at South Paris, Friday morning, was one of the old mill buildings of the town.

It seems that Howland & Page erected a carding mill near the bridge in 1818, at which time Henry R. Parsons of Waterford, bought of Seth Morse, his privilege lower down the stream. On this purchase Mr. Parsons built a fulling mill and it is recorded that he did a very prosperous business. Later he bought the carding mill erected by Howland & Page, Nov. 19, 1834. Mr. Parsons rebuilt at once and continued the business until the formation of a Factory company in 1836, when he sold out his mills to the Factory company.

The company also bought of Thomas K. Stowell his mill and privilege on the north side of the road, Stowell taking stock in the company. The mills purchased were taken down and the wooden mill erected the same season. This was the building which was burned in the fire of Friday.

The result of the first year's operation of the woolen mill was a dead loss of \$10,000. One half of the property was sold to Samuel Thomas, of Sacarappa, at a discount of fifty per cent. He soon after burned out at Sacarappa, and this was another drawback. The business was continued and Thomas failed and his shares went into Hewett Chandler's hands. Finally the other half was sold to Moses Hammond, and business was continued by Moses Hammond until 1853, when it was purchased by Woodman, True & Phelps. The machinery was taken out, the mill enlarged and a first-class flouring mill established.

This flouring mill was run for many years and after the Civil war flour sold here for as high as \$16.50 a barrel. It has been several years since the flouring business was carried on here but one part of the building was used as a grist mill as it was at the time of the fire.

August 11, 1896, the True heirs, viz Samuel A. True, Helen M. True and Mary C. Van Dusen sold the building to Lorenzo P. Hawkins, who manufactured matches there for a short time and later tried making excelsior but was not very successful at the business and sold to A. E. Shurtleff, who has been connected with the flour and grain business in South Paris, for about 20 years. Recently Mr. Shurtleff sold to Webster & Shaskell of Lewiston, and leased a part of it for his grain business of them.

The rest of the building was occupied by the Mason Manufacturing Co. for the manufacture of toys. The company was incorporated in 1903, with J. A. Scott, president, and L. L. Mason, treasurer. About 20,000 square feet were devoted to the manufacture of its highly respected products. About 75 people were employed to assist the many labor saving machines in forming the rough material into the finished article. Since the organization this corporation has opened offices in Portland, and New York city.

This building was burned to the ground, Friday morning. Loss to the Mason Manufacturing Co. about \$16,000.

Sash and Blind Factory.

The sash and blind factory of S. P. Maxim & Son was established in 1880. It was a two-story building, and was fully equipped with every modern device necessary to facilitate the manufacture of their goods.

They were the largest manufacturers of doors, windows, blinds, frames, mouldings, etc., in Oxford county. The building was burned to the ground, Friday morning. Loss \$5,000, insurance \$2,500.

Parker Wyman.

Parker Wyman, of Canton, died Thursday, April 12, at 6 o'clock. Mr. Wyman had been in poor health for some time. His funeral was held Easter Sunday, at the Baptist church of North Livermore, of which he was a member. Rev. G. W. Colby, of Augusta, a former pastor, officiated.

The deceased was a veteran of the Civil War, and was a member of Kimball Post, G. A. R. A short service was held by the post. There were many beautiful flowers. Mr. Wyman was 66 years of age, and is survived by a widow and three daughters, Mrs. Charles Whitman, of Livermore Falls, Evelyn and Edna Wyman, also one brother and two sisters.

Croup Quickly Cured.

A few doses of Chamberlain's Cough Remedy bring surprising results when a child shows symptoms of croup. There is no cause for alarm when this medicine is in the house as it rarely takes more than three or four doses to bring about a complete cure. It has never failed even in the most severe and dangerous cases and no home where there are small children can afford to be without it. For sale by Noyes Drug Store, Norway; Shurtleff's, South and West Paris.

WORKING WOMEN

Their Hard Struggle Made Easier—Interesting Statements by a Young Lady in Boston and One in Nashville, Tenn.

All women work; some in their homes, some in churches, and some in the whirl of society. And in stores, mills and shops tens of thousands are on the never-ceasing treadmill, earning their daily bread.

All are subject to the same physical laws; all suffer alike from the same physical disturbance, and the nature of their duties, in many cases, quickly drifts them into the horrors of all kinds of female complaints, tumors, ulceration, falling and displacements, or, perhaps, irregularity or suppression, causing backache, nervousness, irritability and lassitude.

They especially require an invigorating, sustaining medicine which will strengthen the female organism and enable them to bear easily the fatigues of the day, to sleep well at night, and to rise refreshed and cheerful.

How distressing to see a woman struggling to earn a livelihood or perform her household duties when her back and head are aching, she is so tired she can hardly drag about or stand, and every movement causes pain, the origin of which is due to some derangement of the female organism.

Miss F. Orser, of 14 Warren Street, Boston, tells women how to avoid such suffering; she writes:

Dear Mrs. Pinkham:—
"I suffered miserably for several years from female irregularities, my back ached, I had bearing-down pains, and frequent headaches; Lydia E. Pinkham's Vegetable Compound Succeeds Where Others Fail."

I could not sleep and could hardly drag about. I consulted two physicians without relief, and as a last resort, I tried Lydia E. Pinkham's Vegetable Compound, and to my surprise, every ache and pain left me. I gained ten pounds and am in perfect health."

Miss Pearl Ackers, of 327 North Summer Street, Nashville, Tenn., writes:

Dear Mrs. Pinkham:—
"I suffered with painful periods, severe backache, bearing-down pains, pains across the abdomen; was very nervous and irritable, and my trouble grew worse every month. My physician failed to help me and I decided to try Lydia E. Pinkham's Vegetable Compound. I soon found it was doing me good. All my pains and aches disappeared, and I no longer fear my monthly periods."

Lydia E. Pinkham's Vegetable Compound is the unfailing cure for all these troubles. It strengthens the proper muscles, and displacement with all its horrors will no more crush you.

Backache, dizziness, fainting, bearing-down pains, disordered stomach, moodiness, dislike of friends and society—all symptoms of the female organism will be quickly dispelled, and it will make you strong and well.

You can tell the story of your sufferings to a woman, and receive helpful advice free of cost. Address Mrs. Pinkham, Lynn, Mass. The present Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham and for twenty-five years she has, under her direction and since her decease, been advising sick women free of charge.

Dick Clement of Jersey Talks on Road Building.

MY DEAR SANBORN:—Your letter is here. When I was in Brooklyn last Sunday I told you how I had "sassed" you and he said he thought you were "dead right." That it was sometimes necessary to vest arbitrary power somewhere in some one in order to get anything done. While that is my opinion too, I have as labor dread of anything tending to the centralization of power.

It is not enough to repair roads. They should be built and built of stone. No community is too poor to build a little strip of permanent road each year. It is a duty we owe to posterity too. We are greatly indebted to those who lived before us. We can pay a portion of that debt by building good roads for posterity.

If you find it hard to convert the farmers why don't you try the men in the village? Make Main street an object lesson. Have a civil engineer establish the grade of the street from George Cole's to the old paper mill, (about one mile I believe) make a map which shall show the linear feet on the street owned by each property holder. Then levy a road tax of \$1,000 per year for 8 years on the property owned in the limits of the village corporation, using \$200 per year for repairs, etc., setting aside \$800 per year for the construction of a permanent road on Main street. Supplement this by assessing the abutting property at the rate of say 20 cents per linear foot. In this way the abutting property would pay about one-half cost of construction. Looking estimated \$4,158 per mile for a 21 foot roadway, which is 80 cents (nearly) per linear foot, being 40 cents per linear foot for abutting property. If now the owner pays 20 cents and the corporation 20 cents we have an equitable division of the cost. It is evident that the 10,000 (approximately) linear feet of abutting property would yield, at 20 cents a foot, some \$2,000. In three years, the corporation paying \$2,400, we should have \$400, being \$242 in excess of Cookling's figures for nearly a mile of 21 foot roadway.

The street railroad ought to pay, cost of paving between its rails and three feet on either side. This would reduce the cost somewhat.

Unless the people of Norway to-day differ from the people of the dear old Norway of 20 and 30 years ago, the Norway I know so well, they will be in favor of progress.

I can think of many property owners along Main street, who will gladly pay \$10, \$20 or \$50 to have a good, clean, hard and dry road in front of their 50 or more linear feet of abutting property.

If the conservatives cannot be brought to face some such plan as outlined above, will not the owners on one block, say from Advertiser Corner to Deering, or from Deering to Cottage street, show their public spirit by building one block of good road, paying the whole cost themselves?

I am confident that if the people will once start to building good roads they will continue the good work until all of your principal roads and streets are well made.

It might be added by way of explanation that the Mr. Clement raised objections to the length of the term of office, ten years, which I asked. I'm pleased to see he has been over to my cause, for certainly I cannot accept a shorter term than has been stated. There may be others in town who will and if so they can enter the field for the office with me. I must have it ten years to do what has been outlined.—Editor.

Round the Stove in the Grocery Store.
The place of all others to comfort and cheer, to talk over neighborhood lore; You'll feast your whole soul and forget all your care.
Round the stove in the grocery store, There's a heterogeneous row of seats, Where a row of gentlemen sit, And discuss the world's work from beginning to end.
And each calls himself the great "It." They talk of the war in the far distant East, They understand questions the nations profess, And bet on the fellow who wins.
They are up to the march of the world's great events, And a year or two previous, dare To predict to a certainty who will take part, In a race to the President's chair.
They muse on their neighbors' faults, know all his plans, And meditate on what he's worth, With expectations they vow they would like To wipe him right straight off the earth.
And thus it goes onward, Year in and year out, There always is room for one more, And always a fine point to decide Round the stove in the grocery store.

Harking Back.
To the Seventies.
When the writer "blew into town" as the Western saying goes, he found an unusual number of jokers, men who made the town a success and whose jokes had no venom and were enjoyed by the victim as well as others.
The leader of the past master was Geo. P. Jones, dentist. The writer doubts if there is anyone who ever knew him that has forgotten the jolly, sturdy, genial, kind man, one of the best of friends and neighbors, kind and generous to a fault.
Many a poor boy has been to his office to bring away less teeth and more money, when lacking courage to have an aching tooth pulled.
Dr. Jones, C. B. Cummings, E. W. Howe and A. Oscar Noyes made a quartet that would drive the blues and clouds away from any gathering, wherever it might be. Whenever this party got together there was something doing.
They were great on their Indian War dance, and E. W. Howe was generally the victim who was burned at the stake, made to run the gauntlet or tomahawked, whichever mood the savages happened to be in. Many a suit of clothes were ruined in these bouts, but there was never any "Lees in the cup."
Dr. Albert Thompson was not very slow. As he is still living it is well not to say too much about him, still M. M. Fuller tells of a visit he made to C. B. Cummings' Furniture shop, where Fuller was at work making chairs in sets. The shop floor was full of unfinished pieces. Fiddy, as he was called by all, young and old, began it. Fuller got up on a bench and watched the fun. Fiddy was strong and heavy, the Doctor was light and active, the scrap was a beauty. When they were done the furniture was a total wreck. Fuller burned it for firewood. Fuller's oil stone was broken in the melee, he found a new one in its place in a few days.
Fiddy in his early days had a small shop in this store now occupied by Fletcher's candy store. The owner was somewhat afraid of Fiddy—also of fire—so whenever he came round to see how things were going on, Cummings would kick the shavings as near the stove as possible, giving the owner the idea that he was careless of fire, much to the owners disgust and worry. Fiddy would chuckle to himself as he swept up the floor after the owner had gone away growling about the careless Cummings.
Sometimes the joker had a taste of his own medicine. Cummings was always ready to play his boys and sometimes they came back. One Saturday evening Fiddy was taking a bath in his kitchen. He was alone in the house. The entrance to the kitchen was at the head of a flight of stairs. One of his boys knowing what he was about, and his condition as regards dress, sought to get even, so he put on his mother's bonnet and shawl, came lightly up the stairs to the kitchen, opened the door gently and in a fine imitation of a female voice inquired if Mrs. Cummings was at home. Fiddy hearing the voice and seeing only the bonnet tried to flee, he jumped out of the tub, stepped on the soap, immediately slipped ends, landing across the tub, throwing water all over the kitchen. The boy had in the meantime made his escape. The pressure in the house was immense and somewhat volcanic. Fiddy found out what was up, but he enjoyed it as much as any one when his wounds were healed.

Fiddy was one of those happy individuals who looked better in his work clothes than dressed up. Once when away he thought his collar had got loosened. Taking the end he buttoned it onto the collar buttoned thinking he was all right. Soon every one he met every body was very pleasant until he found he had buttoned one end of his suspenders where the collar should be, making a unique necktie.
Cummings, much to the disgust and inconvenience of his patrons, would up his shop every year and spend two or three months trapping and hunting, going over the wild portion of this and adjoining towns. Some who only saw the outside of things thought he was wasting his time, but he was getting ready for his opportunity, and when it came he grasped it with both hands, with a success that can be measured at a glance now. When the market opened for the local lumber he knew every price of timber land and just what was necessary to be done to get possession of it.
There was another characteristic of these men, that is very unusual in men of their fun, jollity and good fellowship. Not one of them ever smoked or used liquor in any way. Their fun was pure and did not need vinous stimulations. Their descendants are following in their footsteps, and profiting by the good record they have left.

Beware of Ointments for Catarrh That Contain Mercury,
as mercury will surely destroy the sense of smell and give the subject a lame neck, even if it temporarily cures the catarrh. Such articles should never be used except on prescription from a reputable physician, as the damage they will do is ten fold to the good you can possibly derive from them.
Fanny's Ointment, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally and acts directly on the blood and mucous surfaces of the system. In buying Fanny's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.
Sold by Druggists, 75c. per bottle.

Some of the scholars will be sent to the Lynchville school and the rest to the Town House school. Maud Dresser will teach the Lynchville school this summer.
Orin Flint has sold his farm to Walter Canwell of Oxford. Mrs. Canwell was a native of this place and when at the time of her marriage with her husband she moved to Welchville she was greatly missed by her friends here, and will be gladly welcomed back to take up her residence with us again.
It is stated that the Gilead power project of the Berlin Mills company has been abandoned, at least for this year. It seems that it was going to be impossible to develop anything like the power that was at one time anticipated (4000 horse power) later surveys reducing it to 2400. A dam high enough to develop the power would be in high water so have backed their water up Wild River so that the Grand Trunk bridge would have been under water, it is said.

Consumption is a Germ Disease. How can it Start With a Cold?
This is a reasonable question and one that must arise to the mind of almost everyone when the claim is made that colds simply prepare the system for the reception and development of germs that cause disease, that would not otherwise have found lodgement. It is the same with diphtheria, scarlet fever and measles. They are most likely to be contracted when the child has a cold. That is why a cold should never be neglected. The longer it hangs on the greater the danger. As a quick cure for colds Chamberlain's Cough Remedy can always be relied upon. Its remarkable cures have won for it a world wide reputation and an immense sale. It is pleasant and safe to take. For sale by Fanny's Drug Store, Norway, and Shurtleiff's, South and West Paris. 15-19
